Bill,

This will respond to your request on behalf of your client Givaudan to meet with EPA to discuss the data collected from the Passaic River in the vicinity of River Mile 10.9, the Third River, and above the Dundee Dam.

The general consensus at EPA is that it is premature to have a meeting, as we still have work to do in order to analyze the data. However, we would like to offer a conference call, so that Givaudan can provide its perspectives on the data, on your suggested dates of June 16 or 17. On Monday June 16, we could offer 10 to 11 am or 2 to 3 pm, and on Tuesday 10:30 am to noon, or 2:20 to 4 pm.

Just let me know what would be convenient and I will send you call-in information. On our end, I expect that Ray Basso, Eugenia Naranjo, Leena Raut and I would participate, and probably Pat Hick as well.

Regards,

-Sarah
